

CLINICAL REQUIREMENTS

Central Sterile Supply Processing Courses

Offered: Fall or Spring start

Clinical courses will be completed at a contracted clinical partner facility. Clinical hours will be flexible (24 hours/7 days a week) dependent upon the facility's ability to supervise students. A total of 400 clinical contact hours must be completed during the 15-week semester. Clinical will begin during the 3rd week of the semester (Approx. 31 hours x 13 weeks). The required hours for CSSP 1020 will be completed first and then the hours for CSSP 1022 will begin. Clinical hours do not include the 5 hours of class time.

Course #	Course Name	Weekly Contact Hours	Credit Hours
